

your managerial support and love without racism, you have finally ~~ridiculed~~ **ridiculed us from such premises and TEARS** as ST.FRANCIS loved and cared Gods creatures.

Therefore, people in Kihani have been in great **admiration with jubilation** within this pass- over event because they have been able to rise with JESUS CHRIST with clean water suitable for drinking, cooking, breathing and washing family utensils.

School students (St. Aness sec. School) and pupils(St.Marys Primary School, St. Josephs , Allied ) can now wash their uniforms day in, day out.

Since water means life, people now in Kihani has acquired new life especially Our Priests, student, Pupils and community members since we have clean water.

As our cultural and traditional type of jubilating for a certain achievement in our society, people are ready to handle well the given water in every society with love and care since it is the own pillar they wanted from God.

Amazingly to your attention, everyone is in search of clean water in the whole district of Ibanda and it seems our community now has the most clean water with good taps well placed and managed to extent people come from far beyond our society searching for clean water in our community which shows that we have achieved what others are still in need of.

Thank you for making Kihani Parish **a born again society** , we love, we still need you and when your back and greetings to all brothers and sisters there, KIHANI PARISH loves them.
